

Free Headshot Session Guide

Everything you need to know for your shoot.

1. Home Studio Location & Arrival

Address: 7436 Barrymore Drive - basement suite (up the stairs around the house)

- **Parking:** Usually there is free street parking available directly in front of the house
 - **Punctuality:** Please aim to arrive **5 minutes early**. Since sessions are scheduled back-to-back, late arrivals may result in a shortened shooting window.
 - **Can't make it?:** Please text me at least a day in advance. 778 536 0723. Thank you.
-

2. What to Wear: Preparation is Key

To get the most out of your session, I recommend bringing **3 to 4 different tops** so we can look for the best fit and color on camera.

- **Solid Colors:** Generally work best. Mid-tones (blue, green, wine, grey) are universally flattering. Avoid neon colors or very "busy" patterns that distract from your face.
 - **Fit:** Ensure clothes are clean and well-pressed. In a high-resolution headshot, wrinkles are very visible.
 - **Necklines:** Bring variety (e.g., a crew neck, a V-neck, or a blazer/button-down).
 - **Glasses:** If you wear glasses daily, wear them for your shoot! If you have multiple pairs, bring them to check for glare.
 - **Grooming:** Arrive "camera-ready." If you're planning a haircut, try to do it 3–5 days before the shoot so it looks natural.
 - **Make-up for women:** Less is more. If you're an actor/actress, casting directors want to see what you look like in your every day life. Do not conceal moles.
-

3. During the Session

Of course I know how weird it is to come to a strangers house and stand in front of bright lights and camera. It's not something we do every day. But, I'm good with connecting people, and I'm sure you will feel comfortable shortly after we started.

Don't worry about "knowing your angles." As a headshot specialist, I will coach you through posing, expression, and lighting to ensure we capture your most authentic and confident self. We'll review the images as we go to make sure we're hitting the mark.

4. Post-Session & Deliverables

After our session, you will receive a private download link.

For this Session:

- **Included:** One (1) professionally retouched high-resolution headshot of my (Pascal) choice.
- **Download:** You can download all unedited photos from the session for your records.
- **Storage Policy:** Your gallery will remain active for **2 months**. Please ensure you download and back up your files before they are permanently deleted.

Note for Paid Sessions: For standard paid bookings, downloads are hosted for **one year** before being archived (not deleted).

5. Things Often Forgotten

- **Hydration:** Drink plenty of water the day before; it makes a massive difference in your skin's vibrancy.
- **Lint Roller:** I have one in the studio, but if you have a favorite "pet-hair-magnet" sweater, give it a quick once-over before you come in.
- **Lip Balm:** Dry lips are hard to retouch! Use some balm a few hours before the shoot.
